

Accelerated Shelter Exit Pilot Q&A

1. Q: Is there a total project budget that Partners for HOME plans to award to the selected applicant(s)?
A: There is not a set project budget. We are asking providers to submit a proposed budget as part of their application.

2. Q: Is there a formal expectation of holding any number of shelter beds for outreach team referrals or for prioritizing outreach team referrals for open beds? A: The current program model includes setting aside a certain number of beds/rooms specifically for DTR Outreach referrals from the targeted encampment zones. These beds would be reserved for those referrals and would not be available for general public intake.

3. Q: Will clients referred to shelter by outreach teams or CE receive expedited placement into PSH, RRH, or other housing interventions to accelerate housing placement from shelter?
A: Yes, they will either be placed in permanent housing or rapid exit.
