## Community Resource Guide

This resource guide is meant to help the community navigate resources in the City of Atlanta.

---

### Coordinated Entry Access Points

#### **What is Coordinated Entry?**

Coordinated entry is a streamlined system that assesses households using an objective tool that identifies vulnerability and barriers to housing. Homeless service access points allow individuals to be assessed and prioritized for available housing programs as vacancies occur, based on vulnerability and severity of needs. Currently, the CoC uses the VI-SPDAT to prioritize referrals to housing interventions through coordinated entry. Within the Atlanta CoC, there are stationary access points where clients can get assessed for coordinated entry on a first come, first served basis. Mobile assessments are performed by local PATH and outreach teams for those in unsheltered locations.
