

Panel RFP Questions and Answers

Could organizations apply under the Panel RFP together? If we wanted to apply for Rapid Rehousing (Case Management, Unit Acquisition, and Rental Assistance) * along with another agency would that be allowable? If that is allowable, would we submit a separate application for that key area from our application for all other key areas?

- Yes, each organization would need to submit separate applications and reference the collaboration.

Can we say no to a key area once we're on the panel? If we panel for Diversion as well as O/N to RRH and PFH offers us FTEs under both, can we determine at that point that we can only ramp up O/N to RRH and choose to decline Diversion?

- Yes, organizations will have an opportunity to decline.

Does PFH have a planned date for the first Panel RFP review? Is there a published deadline for the first batch of applications?

- This is a rolling RFP Panel. Applications will be reviewed at least quarterly but depending on funding availability may be more frequent.

Is there a maximum amount that we can request?

- The answer is no. Award amounts will be determined based on available funds.
