

Rapid Housing Initiative - 100+ Units Q&A

1. **Q:** We are interested in applying, but have a question about the staffing. The Rapid Housing Initiative Site Manager and Supportive Services Outcome and Duties Guide and the application have different information on the service staff requirements. Please help us clarify.
A: The guide is older and is from a previous training. The correct number of staff is in the application (14).
Note: The guide was updated and reposted.
2. **Q:** The application also states that 7 staff must be licensed masters level clinicians. Is that accurate? I ask because a masters level staff salary would be \$55k but a licensed person would be \$75k+.
A: Someone with a master's degree and experience will work for this role.
3. **Q:** I am attempting to submit our proposal for RHI-Supportive-Services-Lofts-at-Twenty25 due by August 24th. I cannot find the link to the application portal. I see there is a new opportunity due on the September 7th.
A: This is the same application. Lofts at Twenty25 is no longer the guaranteed site. We are now looking for another similar site that will still have 100+ units to serve. We extended the deadline due to this.
